

TRENWYTH

Monumental Series

over-sized masonry units

the logical choice
for making a bigger statement.

Monumental units are over-sized to give you the freedom to create designs of monumental proportions. Monumental Series over-sized units are available in the following finishes: ground face, filled and polished or textured

Monumental Series advantages at a glance

Over-sized Variations of Trenwyth Units	Available in Verastone®, Verastone® Plus, Trendstone®, Trendstone Plus® , Verastone® Textured and Mesastone® finishes, the Monumental Series provides the same durability and design flexibility as our standard size masonry units.
Large Scale Designs	Large and specialty size units are perfect for large scale walls, columns and arches.
One-step Installation	Single trade installation of finished load-bearing or non-load-bearing walls saves time and money.
Preserved Beauty	Factory-applied clear satin gloss or water-based sealer accentuates the natural beauty of Verastone, Verastone Plus, Trendstone and Trendstone Plus aggregates while protecting from moisture and the elements.
Moisture / Mold Resistant	Monumental over-sized units are manufactured with an integral water repellent admixture to repel moisture and prevent mold and efflorescence.
Easy to Clean	Monumental units with a Verastone Plus and Trendstone Plus finish are specially made to provide a surface that offers easy removal of graffiti and hard-to-clean dirt.
Low Maintenance	Monumental over-sized units are virtually maintenance free and will last the lifetime of your building with no refinishing.
Colors, Shapes & Scoring Patterns	An extraordinary color palette and a wide variety of shapes and scoring patterns are available for maximum design flexibility. Monumental units are available in most Verastone, Verastone Plus, Trendstone, Trendstone Plus, Verastone Textured and Mesastone colors.
Fire Protection	Monumental units features up to a 4-hour fire rating.
Regional Color Options	The aggregates are native to your region allowing your building to blend naturally with your environment.
Recycled Content	Monumental units with a Verastone recycled ground face, Verastone Plus recycled filled and polished or Verastone Textured recycled finish contain a significant amount of recycled pre-consumer content that may earn LEED Green Building Rating Points® for your building.
Availability	Monumental units with a Trendstone, Trendstone Plus or Mesastone finish are manufactured nationally in to provide convenient service anywhere in the USA. Monumental units with a Verastone, Verastone Plus or Verastone Textured finish are manufactured in PA and IL.
